Definition Reminder: 800 Series Work Items

- An 800 Series Work Item is a **system-generated** message issued through the Veterans Service Network (VETSNET) that is designed to assist Veterans Service Centers (VSCs) and pension management centers (PMCs) in identifying and tracking cases that require follow-up action. 800 series work items replace paper work items.
- M21-1 III.v.10.A.1.a (Definition: 800 Series Work Items)

 - Are **not** generated by a claim submitted to VA.
 - Indicate to a PMC VSR that a deceased beneficiary's benefits should be terminated.
- FNOD action for a Veteran **or** CESTed: EP 137 for a non-Veteran

820 Series Work Item Claim Labels

- **738: FNOD Vet Married to Vet:** Spouse award needs adjustment
- **833A: SSA Death DOB Mismatch:** Master record date of birth does not match the SSA date of birth
- **833B: SSA Death Name Mismatch:** Master record last name or first initial of the first name do not match the SSA last name and/or first initial of the first name
- **833C: SSA Death C&P Matched:** The master record and the SSA DMF match on SSN, DOB, and name
