

eFolder Modernization Fact Sheet

About eFolder Modernization:

eFolder Modernization, also known as the Claims Evidence User Interface (UI), is a modernized and updated version of the current VBMS eFolder. This modernization presents no lost functionalities for end users.

Modernization Benefits:

Users will have a modernized eFolder interface with no lost legacy functionality

The modernized eFolder will better support the current performance demand

Users will not need to transition between two systems

eFolder modernization supports VBMS Smart Search functionality

The Claims Evidence UI is scheduled for production delivery in third quarter, fiscal year 2023
