The screenshot shows the 'Drill Pay' adjustment process in the VBMS Awards system. The interface includes a navigation menu on the left, a top navigation bar with tabs for Disability Pay, Separation Pay, Retired Pay, Drill Pay, and Other Adjustments. The main content area is titled 'Drill Pay Profile' and 'Decision'. The 'Decision' section contains a table with columns for Select, Decision Date, Fiscal Year, # Days, Award Eff Date, Amount, and End Date. Below the table is a form for adjusting the award, with fields for Fiscal Year, # Days, Award Effective Date, Amount, and End Date. The form also includes buttons for 'Accept', 'Abandon', and 'Accept a Drill Pay'. A 'Done' button is at the bottom. The interface is annotated with yellow boxes and arrows indicating the steps for adding and adjusting a drill pay entry.

- 2) In the Award Adjustment screen, select the **Drill Pay** tab
- 3) Select the **Add** button
- 4) Input the 4 digit year of the Fiscal Year you want to adjust
- 5) Input the **number of days** to adjust
- 6) Input the **Award Effective Date**. (The auto-filled date may not always be the date you will start your adjustment from)
- 7) Input the **amount** of the adjustment. (This amount will come from the Corporate Record Award History screen in SHARE)
- 8) The End Date will be automatically populated based on **# Days** and **Award Effective Date** entries
- 9) Select **Accept** to update the grid *
- 10) Select **Done** to save the decision and close the screen

*If you have multiple Fiscal Years to adjust for, you would select Add and complete the steps again for the next period, using the End Date of the previous period as the Award Effective Date of the new period.
