- Become familiar with the content of the various references listed in this guide and their association to the presentation.
- Practice is the best guarantee of providing a quality presentation. At a minimum, do a complete walkthrough of the presentation to practice coordination between the lesson materials, demonstration, and to ensure your timing is on track with the length of the lesson.
- Make appropriate training room reservations and accommodations.
- Ensure the instructor computer and overhead projector work properly.
- Talk to people in your office who are most familiar with this topic to collect experiences that you can include as examples in the lesson.
- This lesson plan belongs to you. Feel free to highlight headings, key phrases, or other information to help the instruction flow smoothly. Feel free to add any notes or information that you need in the margins.
