Automated Agent/Attorney Fee Deduction Job Aid

Purpose

Effective July 25, 2022, new functionality in the Veterans Benefits Management System-Awards (VBMS-A) and Enterprise Management for Payment and Workload Reporting (eMPWR) systems will allow automation of the agent/attorney fee deduction. Prior to the update, VBA required agent and attorney fee coordinators (AAFC) to send a memo to finance to establish an agent/attorney fee deduction prior to authorization of the award. Now, the AAFC will enter the deduction directly into VBMS-A.

This Job Aid reflects the procedures for entering a deduction within VBMS-A.

Audience

Veterans Service Representative (VSR) and Senior Veterans Service Representative (SVSR) AAFCs

Important Reminders

- The fee deduction amount entered in the **Other Adjustments** tab will not function like a typical withholding (retired pay, drill pay, etc.).
 - No withholding will appear on the award print or the award information screen.
 - Subsequent deletion (after authorization) of the fee deduction entry will not release any benefits or reverse the fee deduction action.
- If a fee deduction that has been previously authorized is in VBMS-A while processing a subsequent award, that prior deduction amount will not impact current award processing.

- However, if a fee deduction entry is inadvertently deleted from VBMS-A after the award has been authorized, re-entering the prior fee deduction (amount, dates, etc.) will trigger a new deduction.
 - Authorization personnel should pay close attention to the decision date and ensure it aligns with the current award they are processing.
 - The decision date is the date the user enters the adjustment into VBMS-A. That date is system generated and cannot be modified by the user.
 - Options for taking a screenshot include, but are not limited to, Print Screen, Snipping Tool, and Snip & Sketch as discussed in this PC Magazine article, "[How to Take Screenshots in Windows 10.](#)"
