

VBA Offices have access to multiple sources of evidence for use in the development of their Budget Narratives. Though not a complete list, information found within or developed by the items noted on this slide can be used as supporting evidence by VBA offices.

This includes but not limited to the following:

- Cost/efficiency studies, including cost-benefit analysis
- Business cases
- Program evaluations and reviews
- Randomized, controlled trials
- Statistical models
- Surveys of Veterans, their families, providers, employees, practitioners, suppliers
- Operational performance measures, including APPs, APGs, VAOB reporting
- Process measures of effectiveness or efficiency
- Policy analysis
- Strategy studies
- Longitudinal studies
- Capacity and requirements assessments
- Outcomes analysis and impact evaluations
- Improper payment studies
- Multigenerational studies
- Quasi-experimental studies
- Compliance investigations
- Risk register entries

A few common sources that may already be available are cost benefit analysis, business cases, surveys, operational performance measures, and various assessments and studies.
