

VBA Learning Catalog: Frequently Asked Questions (FAQs)

What is the purpose of the VBA Learning Catalog?

The Veterans Benefits Administration (VBA) has developed a searchable comprehensive Training Catalog collection with multiple learning resources, including online training, classroom training, and more.

Who is this catalog designed for? Who should use it?

The VBA Learning Catalog is designed to be used by Training Managers, Coaches, and Quality Review Team (QRT) members.

How do I use the catalog?

Go to the [catalog's homepage](#) and read the "Getting Started: Using the VBA Learning Catalog..." section and/or click on the User Guide link on the right-hand side.

How do I find my NTC requirements?

Look under "Useful Links" on the right-hand side of the VBA Learning Catalog homepage. It lists the SOPs and Fast Letters available for Compensation Service, Education Service (ACL, Processing, VACO), Office of Administrative Review (OAR), Outreach, Transitions, and Economic Development (OTED), Pension and Fiduciary Service, and Veteran Readiness & Employment Service (VRE).

How do I find my stuff?

Courses and curricula for the various services can be found by using the tabs at the top of the homepage or the search field.

I don't see NFED courses. What do I do?

The Learning Catalog contains VBA items only. If you are looking for a broader category, go to the [Talent Management System \(TMS\)](#).

You haven't answered my question.
